## Geoengineering Responses to Climate Change: Selected Entries from the Encyclopedia of Sustainability Science and Technology

Failure by the international community to make substantive progress in reducing CO<sub>2</sub> emissions, coupled with recent evidence of accelerating climate change, has brought increasing urgency to the search for additional remediation approaches. This book presents a selection of state-of-the-art geoengineering methods for deliberately reducing the effects of anthropogenic climate change, either by actively removing greenhouse gases from the atmosphere or by decreasing the amount of sunlight absorbed at the Earth's surface. These methods contrast with more conventional mitigation approaches which focus on reducing emissions of greenhouse gases, especially carbon dioxide. Geoengineering technologies could become a key tool to be used in conjunction with emissions reduction to limit the magnitude of climate change. Featuring authoritative, peer-reviewed entries from the Encyclopedia of Sustainability Science and Technology, this book presents a wide range of climate change remediation technologies.

### **From reader reviews:**

#### **Katherine Sherrer:**

Do you have favorite book? For those who have, what is your favorite's book? Guide is very important thing for us to understand everything in the world. Each guide has different aim as well as goal; it means that book has different type. Some people truly feel enjoy to spend their the perfect time to read a book. They can be reading whatever they get because their hobby is usually reading a book. What about the person who don't like reading a book? Sometime, particular person feel need book when they found difficult problem or perhaps exercise. Well, probably you will want this Geoengineering Responses to Climate Change: Selected Entries from the Encyclopedia of Sustainability Science and Technology.

#### **Rocio Linville:**

This book untitled Geoengineering Responses to Climate Change: Selected Entries from the Encyclopedia of Sustainability Science and Technology to be one of several books that will best seller in this year, here is because when you read this reserve you can get a lot of benefit into it. You will easily to buy this kind of book in the book retail outlet or you can order it by way of online. The publisher of the book sells the e-book too. It makes you quickly to read this book, because you can read this book in your Mobile phone. So there is no reason to you personally to past this e-book from your list.

#### **Christine Flint:**

People live in this new day time of lifestyle always try to and must have the extra time or they will get lot of stress from both day to day life and work. So , when we ask do people have spare time, we will say absolutely of course. People is human not just a robot. Then we request again, what kind of activity are there when the spare time coming to a person of course your answer may unlimited right. Then do you ever try this one, reading books. It can be your alternative in spending your spare time, the book you have read will be Geoengineering Responses to Climate Change: Selected Entries from the Encyclopedia of Sustainability Science and Technology.

#### **Jennifer Klein:**

Your reading sixth sense will not betray a person, why because this Geoengineering Responses to Climate Change: Selected Entries from the Encyclopedia of Sustainability Science and Technology guide written by well-known writer we are excited for well how to make book that can be understand by anyone who all read the book. Written throughout good manner for you, still dripping wet every ideas and producing skill only for eliminate your current hunger then you still uncertainty Geoengineering Responses to Climate Change: Selected Entries from the Encyclopedia of Sustainability Science and Technology as good book not simply by the cover but also by content. This is one book that can break don't judge book by its cover, so do you still needing an additional sixth sense to pick this particular!/? Oh come on your studying sixth sense already alerted you so why you have to listening to yet another sixth sense.
