## **Magic in Practice (Second Edition): Introducing Medical NLP: the art and science of language in healing and health** Garner Thomson, Dr Khalid Khan

This is the second edition of this highly respected introduction to Medical Neurolinguistic Programming, which remains the official handbook of the Society for Medical NLP. Based on the work of Dr Richard Bandler, Medical NLP has developed to become a discipline in its own right, guided by Garner Thomson. Revised and updated throughout, significant new sections have been added on: priming, breathing, heart rate, sleep, relationships and cancer, and lifestyle diseases. This is a key resource for all health practitioners who want to understand and improve the effects of what they communicated, consciously and unconsciously, to their patients/clients.
