The New Age Martin Gardner

Not since his *Science: Good, Bad and Bogus* has there been such a bountiful offering of the delightful combination of drollery and horse sense that has made Martin Gardner the undisputed dean of the critics of pseudoscience.

In *The New Age: Notes of a Fringe-Watcher*, Gardner confronts new trends in pseudoscience and the paranormal: from the much-publicized past-life exploits of Shirley MacLaine to the latest in perpetual-motion machines, from "prime-time preachers" to the "channeling mania" of the past few years.

Many of these pieces were published in Gardner's column in the *Skeptical Inquirer*. Others appeared in the *New York Times*, *The New York Review of Books*, *Discover* magazine, and other publications. Gardner has added forewords and/or afterwords to most of the chapters to give background, to bring recent developments to light, or to include responses from his critics.

Destined to be a classic of skeptical literature, this book will be a welcome treat for Gardner fans and a rewarding adventure for his new readers.
