Somewhat akin to the MBTI ENTP personality type, the Seeker in Jung-based socionics reminds one of Don Quixote. This little book helps the Seeker personality type understand himself or herself as a personality and in relationships with others: parents, children, teachers, students, colleagues, friends. Through examples of home, school, work, and leisure situations, this book explores the sources of moments of deep attachment and deep pain when Seekers come into contact with non-Seekers and provides both Seekers and non-Seekers suggestions for developing comfortable, happy, and successful relationships. A companion to Ekaterina Filatova's book, *Understanding the People around You*.
