Einstein and the Quantum: The Quest of the Valiant Swabian A. Douglas Stone

Einstein and the Quantum reveals for the first time the full significance of Albert Einstein's contributions to quantum theory. Einstein famously rejected quantum mechanics, observing that God does not play dice. But, in fact, he thought more about the nature of atoms, molecules, and the emission and absorption of light--the core of what we now know as quantum theory--than he did about relativity.

A compelling blend of physics, biography, and the history of science, *Einstein and the Quantum* shares the untold story of how Einstein--not Max Planck or Niels Bohr--was the driving force behind early quantum theory. It paints a vivid portrait of the iconic physicist as he grappled with the apparently contradictory nature of the atomic world, in which its invisible constituents defy the categories of classical physics, behaving simultaneously as both particle and wave. And it demonstrates how Einstein's later work on the emission and absorption of light, and on atomic gases, led directly to Erwin Schrödinger's breakthrough to the modern form of quantum mechanics. The book sheds light on why Einstein ultimately renounced his own brilliant work on quantum theory, due to his deep belief in science as something objective and eternal.

From reader reviews:

Ian Coghlan:

This Einstein and the Quantum: The Quest of the Valiant Swabian book is not really ordinary book, you have it then the world is in your hands. The benefit you will get by reading this book will be information inside this e-book incredible fresh, you will get facts which is getting deeper you read a lot of information you will get. This Einstein and the Quantum: The Quest of the Valiant Swabian without we understand teach the one who reading it become critical in contemplating and analyzing. Don't be worry Einstein and the Quantum: The Quest of the Valiant Swabian can bring whenever you are and not make your carrier space or bookshelves' turn out to be full because you can have it within your lovely laptop even telephone. This Einstein and the Quantum: The Quest of the Valiant Swabian having great arrangement in word and layout, so you will not feel uninterested in reading.

Agnes Figueroa:

This Einstein and the Quantum: The Quest of the Valiant Swabian are reliable for you who want to be considered a successful person, why. The main reason of this Einstein and the Quantum: The Quest of the Valiant Swabian can be among the great books you must have is usually giving you more than just simple reading through food but feed an individual with information that maybe will shock your prior knowledge. This book is handy, you can bring it everywhere you go and whenever your conditions both in e-book and printed ones. Beside that this Einstein and the Quantum: The Quest of the Valiant Swabian giving you an enormous of experience including rich vocabulary, giving you trial of critical thinking that we know it useful in your day activity. So , let's have it and luxuriate in reading.

Bonnie Camacho:

Reading can called thoughts hangout, why? Because if you find yourself reading a book specifically book entitled Einstein and the Quantum: The Quest of the Valiant Swabian your mind will drift away trough every dimension, wandering in every aspect that maybe mysterious for but surely can be your mind friends. Imaging every single word written in a book then become one web form conclusion and explanation which maybe you never get prior to. The Einstein and the Quantum: The Quest of the Valiant Swabian giving you one more experience more than blown away your thoughts but also giving you useful details for your better life with this era. So now let us explain to you the relaxing pattern here is your body and mind will likely be pleased when you are finished looking at it, like winning a. Do you want to try this extraordinary spending spare time activity?

Jeanette Williams:

Reading a reserve make you to get more knowledge from the jawhorse. You can take knowledge and information originating from a book. Book is composed or printed or descriptive from each source which filled update of news. In this modern era like today, many ways to get information are available for you

actually. From media social similar to newspaper, magazines, science e-book, encyclopedia, reference book, fresh and comic. You can add your understanding by that book. Are you ready to spend your spare time to open your book? Or just in search of the Einstein and the Quantum: The Quest of the Valiant Swabian when you needed it?
