Neurotransmitter Actions and Interactions: Proceedings of a Satellite Symposium of the 12th International Society for Neurochemistry Meeting, Algarve, ... of Neural Transmission. Supplementa)

A group of former students, colleagues and friends of Professor Ted Sourkes met at a Satellite Symposium of the 12th International Society of Neurochemistry Meeting, held in the Algarve, Portugal on April 29 - 30, 1989, in order to honour the man and his contributions to Science in the year of his 70th birthday. This volume contains the proceedings of that meeting. The work described in each of the papers owes a direct debt to Ted's pioneering work in a wide range of areas of biochemistry, biochemical psychiatry and neurochemistry. The importance of his rigorous scientific approach, wealth of ideas and effectiveness as a teacher to their own scientific development was acknowledged by speaker after speaker. In addition to those who presented the papers that are published here thanks are due to I. Bruinvels, G. Curzon, A. D'Iorio, M. Ekker, A. F. Reeley, R. McIlwain, N. Osborne, and A. Yuwiler who acted as Chairmen of individual sessions. VIII Preface We are grateful to American Cyanamid Company, Asta Pharma (F.R.G.), Ciba Geigy, Farmitalia Carlo Erba, Hoffmann-La Roche, The International Society of Neurochemistry, Nutrasweet Co., and G. D. Searle for their generous support. We are glad to dedicate this volume to Ted and his wife Shena in gratitude for all they have done.
