An Unruly World?: Globalization, Governance and Geography

Usan M. Roberts

An Unruly World?: Globalization, Governance and Geography Usan M. Roberts

An Unruly World explores the diverse conundrums thrown up by seemingly unruly globalization. Examining how fast transnational capitalism is re-making the rules of the game, in a wide variety of different places, domains, and sectors, the authors focus on a wide range of issues: from analysis of 'soft capitalism', and the post-Cold War organizational drives of international trade unions, to the clamour of states to reinvent welfare policy, and the efforts of citizen groups to challenge trade and financial regimes. *An Unruly World* argues that we are not living in a world bereft of rules and rulers; the rules governing the global economy today are more strictly enforced by international organizations and rhetoric than ever before.
