After fleeing the TC Genetic Manipulation Lab, Kellan never expected to meet a man like Neil, who accepted him as he was, and quickly fell in love with him. In an effort to live a life as normal as possible, Neil and Kellan put their trust in an informant within the government who insists they vacate the secluded lighthouse in Traverse City, Michigan and head west to a GM Lab in Arizona. On their flight across the country, they surrender to the yearnings of the heart, to the passion that burns like a hungry fire, and their romance spirals in and out of chaos while caught up in the anarchy of being on the run. Perils they weren't expecting get in the way, bringing uncertainty to riveting levels with almost every move they make. Kellan knows danger surrounds them—the same threat that once hunted him and still haunts his mind. Could Kellan and Neil's strengthening bond be their saving grace from the malevolent forces that are trailing them? Soon after their arrival at AZ GM Laboratory, Kellan submits to a deal between him and the government, one that seems to promise him peace of mind and the life with Neil he longs for. In exchange, he must first adhere to the task laid out for him, even though doubts of trusting those guiding him is reason to suspect there's more at stake than what he's being told. Take a fast flying journey with a magnificent angel and his newfound love, Neil, in this sequel to the best-selling novel, Take To The Sky.
