**"Fascinating account. I strongly recommend it." —Jeane J. Kirkpatrick**

World-renowned terrorism expert Yossef Bodansky explores the transformation of Osama bin Laden from a once promising engineering student into the cold-blooded leader of the radical Islamic terrorist group, al Qaeda. With meticulous detail, Bodansky chronicles the events leading up to the international operation of hunting bin Laden.

In the process, Bodansky pulls together a chilling story that is as ancient as the Crusades; a story that transcends bin Laden and any other single man, one that sweeps from Iran, Afghanistan, and Iraq to Kosovo and beyond. He takes you deep into the heart of centuries-old hatreds that have produced generations of bin Ladens and a terror network of underground armies that can strike virtually anywhere in the world. Fueled by Middle Eastern oil wealth and covertly armed by some of America's closest allies, this terror network is waging a brutal guerrilla war whose aim is nothing short of changing the course of history. The battlefields are increasingly Western city streets, and the casualties are most often innocents caught in the crossfire.

Including information about al Qaeda's pursuit of chemical and nuclear weapons, covert deals between the U.S. and Islamic terrorists, and American efforts in the years-long campaign to capture Osama bin Laden, this book is a sobering wake-up call.
