**Learn about Wine the Visual Way.**

You consider yourself fairly open minded about wine. You're familiar with the big five -- *Merlot, Cabernet Sauvignon, Pinot Noir, Sauvignon Blanc, and Chardonnay* -- and are getting comfortable with more obscure grape varieties: the occasional *Albarino, Petite Sirah, or Viognier*. But just when you thought you had the situation under control, your waiter suggests a *Lagrein*, your local liquor store is pushing *Xynomavro*, and your friends now swear by *Pineau d'Aunis*. What to do?

The popular wine reference, *De long's Wine Grape Varietal Table* has been improved and expanded. Just as with the first edition, the world of wine grapes is organized in a clear, concise and easy to use reference similar to a periodic table. The table contains 184 red and white grape varieties organized by both body (vertically) and acidity (horizontally). The Wine Indexes, which help to answer the bacchanalian question "what grape are you drinking?", now include all wine regions worldwide. To fit all the additional information in, the table is now 24 x 36 inches (printed on 110 lb. acid-free archival paper), and the indexes now comprise an 88 page perfect-bound book. The table and index book are packaged in an attractive and sturdy gift box.

It makes a great gift for novice or expert lovers of wine and is the first in the De Long's Wine Info Series, a concise set of wine information guides.
