It happens all the time. A business owner gets served with divorce papers then tries to convince the court that business is suffering. Stories vary, but the argument is the same: there is no money to pay for spouse and child support.

In this book, Mark Kohn draws upon 25 years of professional experience as a forensic accountant to show readers how to detect when a spouse is hiding income—and how to find it.

In this book, readers will learn . . .

- What is hidden income?
- When is income hidden legally?
- What are the methods used to find illegal hidden income?
- Will the IRS find the illegal hidden income? . . . and much more.

Through case studies from the author's own experience, *How They Stash the Cash* gives readers the tools they need to uncover hidden income and receive a fair share of support and divorce assets.
