Focusing on the Iranian presidential elections of 2009 and ensuing demonstrations in major cities across Iran and world, Media, Power, and Politics in the Digital Age provides a balanced discussion of the role and impact of modern communication technologies, particularly the novel utilization of 'small digital media' vis-^-vis the elections and global media coverage. Written in a non-technical, easy to read, and accessible manner, the volume will appeal to scholars, students, policy makers and print professionals alike. To provide a global overview of media coverage and diverse perspectives on the controversial 2009 presidential election, this book consists of 24 original essays, covering issues from global media coverage to new media-social networking, from the ideological-political dimensions to the cultural facets of the elections. Organized in a cohesive manner, the writing styles and presentation remain varied and richly informative.
