When a father and husband wakes up to find his neighborhood has been demolished during the night, he and his neighbor set out to find the truth behind the catastrophe. What they find, however, is a conspiracy far beyond anything they could have possibly imagined. A breathless ride that grows more ominous with each passing chapter, J. A. Stoll's debut heralds the arrival of a gifted young storyteller with a knack for the incredible. Dean Thompson has the life most Middle Americans dream of: a home in the quiet Ohio town of Lincoln Falls, a lovely wife, two great kids, and the time to enjoy it all. But then one morning Dean walks out his front door to find his neighborhood devastated. Trees are uprooted, power lines are down, a never-ending cover of shifting clouds of ash darkens the sky—it's as if a bomb dropped. Silently. Luckily for Dean, Walt McQuade and his family are safe and sound as well and together they decide to find out exactly what's happened. Journeying into the heart of Lincoln Falls, Dean and Walt discover that the majority of the damage was concentrated there. During their excursion they talk to more survivors and start to piece together one ominous, chilling fact: what happened to their small town might be just a small part of a much larger event, one that could put all of their lives—and the future of humanity—in imminent danger. A fast-paced thriller that examines the consequences of an unexplained catastrophic event on small town America, J. A. Stoll's novel delivers a flare for the extraordinary as he slips down the rabbit hole of first-rate conspiracy theory. Reminiscent of the works of Dan Brown and James Patterson, this mysterious journey into the unknown is filled with a visceral intensity and almost unbearable suspense that builds, page by page, chapter by chapter. And as its layers peel off one by one, Lincoln Falls revels in its deepening dread until a bone-chilling finale that will leave you breathlessly awaiting its sequel.
