Tony Ojeda, Sean Patrick Murphy, Benjamin Bengfort, Abhijit Dasgupta

Practical Data Science Cookbook - Real-World Data Science Projects to Help You Get Your Hands On Your Data Tony Ojeda, Sean Patrick Murphy, Benjamin Bengfort, Abhijit Dasgupta

Key Features

- Learn how to tackle every step in the data science pipeline and use it to acquire, clean, analyze, and visualize data
- Get beyond the theory with real-world projects
- Expand your numerical programming skills through step-by-step code examples and learn more about the robust features of R and Python

Book Description

Data's value has grown exponentially in the past decade, with 'Big Data' today being one of the biggest buzzwords in business and IT, and data scientist hailed as 'the sexiest job of the 21st century'. Practical Data Science Cookbook helps you see beyond the hype and get past the theory by providing you with a hands-on exploration of data science. With a comprehensive range of recipes designed to help you learn fundamental data science tasks, you'll uncover practical steps to help you produce powerful insights into Big Data using R and Python.

Use this valuable data science book to discover tricks and techniques to get to grips with your data. Learn effective data visualization with an automobile fuel efficiency data project, analyze football statistics, learn how to create data simulations, and get to grips with stock market data to learn data modelling. Find out how to produce sharp insights into social media data by following data science tutorials that demonstrate the best ways to tackle Twitter data, and uncover recipes that will help you dive in and explore Big Data through movie recommendation databases.

Practical Data Science Cookbook is your essential companion to the real-world challenges of working with data, created to give you a deeper insight into a world of Big Data that promises to keep growing.

What you will learn

- Follow the recipes in this essential data science cookbook to learn the fundamentals of data science and data analysis
- Put theory into practice with a selection of real-world Big Data projects
- Learn the data science pipeline and successfully structure your data science project
- Find out how to clean, munge, and manipulate data
- Learn different approaches to data modelling and how to determine the most appropriate for your data
- Learn numerical computing with NumPy and SciPy

About the Authors

Tony Ojeda is the founder of District Data Labs, a cofounder of Data Community DC, and is actively involved in promoting data science education through both organizations.

Sean Patrick Murphy spent 15 years as a senior scientist at The Johns Hopkins University Applied Physics Laboratory, where he focused on machine learning, modeling and simulation, signal processing, and high performance computing in the Cloud. Now, he acts as an advisor and data consultant for companies in SF, NY, and DC.

Benjamin Bengfort has worked in military, industry, and academia for the past 8 years. He is currently pursuing his PhD in Computer Science at the University of Maryland, College Park, researching Metacognition and Natural Language Processing.

Abhijit Dasgupta is a data consultant working in the greater DC-Maryland-Virginia area, with several years of experience in biomedical consulting, business analytics, bioinformatics, and bioengineering consulting.

Table of Contents

1. Preparing Your Data Science Environment
2. Driving Visual Analysis with Automobile Data (R)
3. Simulating American Football Data (R)
4. Modeling Stock Market Data (R)
5. Visually Exploring Employment Data (R)
6. Creating Application-oriented Analyses Using Tax Data (Python)
7. Driving Visual Analyses with Automobile Data (Python)
8. Working with Social Graphs (Python)
9. Recommending Movies at Scale (Python)
10. Harvesting and Geolocating Twitter Data (Python)
11. Optimizing Numerical Code with Numpy and Scipy (Python)

From reader reviews:

Henry Robinson:

Do you certainly one of people who can't read enjoyable if the sentence chained within the straightway, hold on guys this aren't like that. This Practical Data Science Cookbook - Real-World Data Science Projects to Help You Get Your Hands On Your Data book is readable through you who hate the perfect word style. You will find the information here are arrange for enjoyable studying experience without leaving perhaps decrease the knowledge that want to provide to you. The writer of Practical Data Science Cookbook - Real-World Data Science Projects to Help You Get Your Hands On Your Data content conveys thinking easily to understand by many individuals. The printed and e-book are not different in the information but it just different available as it. So , do you nonetheless thinking Practical Data Science Cookbook - Real-World Data Science Projects to Help You Get Your Hands On Your Data is not loveable to be your top list reading book?

Jesus Novak:

Reading a book for being new life style in this yr; every people loves to examine a book. When you go through a book you can get a great deal of benefit. When you read textbooks, you can improve your knowledge, since book has a lot of information onto it. The information that you will get depend on what types of book that you have read. If you need to get information about your analysis, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, this kind of us novel, comics, and also soon. The Practical Data Science Cookbook - Real-World Data Science Projects to Help You Get Your Hands On Your Data will give you a new experience in looking at a book.

Carolyn Bailey:

Beside this kind of Practical Data Science Cookbook - Real-World Data Science Projects to Help You Get Your Hands On Your Data in your phone, it might give you a way to get nearer to the new knowledge or information. The information and the knowledge you can get here is fresh through the oven so don't be worry if you feel like an old people live in narrow village. It is good thing to have Practical Data Science Cookbook - Real-World Data Science Projects to Help You Get Your Hands On Your Data because this book offers to your account readable information. Do you at times have book but you would not get what it's exactly about. Oh come on, that will not end up to happen if you have this with your hand. The Enjoyable agreement here cannot be questionable, just like treasuring beautiful island. Techniques you still want to miss that? Find this book and read it from now!

Judith Ellis:

Don't be worry should you be afraid that this book will filled the space in your house, you can have it in e-book approach, more simple and reachable. This specific Practical Data Science Cookbook - Real-World

Data Science Projects to Help You Get Your Hands On Your Data can give you a lot of close friends because by you looking at this one book you have thing that they don't and make a person more like an interesting person. That book can be one of a step for you to get success. This reserve offer you information that maybe your friend doesn't recognize, by knowing more than additional make you to be great persons. So , why hesitate? We need to have Practical Data Science Cookbook - Real-World Data Science Projects to Help You Get Your Hands On Your Data.
