Teaching Introductory Psychology: Survival Tips from the Experts

Teaching Introductory Psychology: Survival Tips from the Experts

Written by some of psychology's most accomplished teachers, this is an introductory guide for first-time psychology teachers. The book provides proven teaching activities and offers ideas on how to structure the course; how to choose what material to teach; how to teach with passion and engage students; and how best to use the introductory textbook. It combines well-known authors' own teaching techniques, philosophies, tips, and personal recollections.
