## American Catholic Social Teaching, with CD-ROM of Bishops' Documents

Whenever a homily about justice and charity is preached, whenever a union leader or politician inspired by papal pronouncements about just wages stands up to help poorly paid workers, whenever a diocesan newspaper publishes an article advocating creative ways to battle injustices of any sort--these are the ways Catholic social teachings are realized in the everyday world. Catholic social teaching is usually applied to approximately a dozen documents from Vatican sources--popes, councils, and synods of bishops. These social documents deal primarily with issues of life in modern society, including economic and political realities facing all people. A more expansive understanding of Catholic social teaching would extend the conventional definition of the phrase in three ways: first, to consider how Church leaders and theologians addressed social realities in eras prior to the advent of modern social teaching; second, to include developments on the local level, including statements by individual bishops in their dioceses and regional groupings of bishops such as national episcopal conferences; third, to include various types of applied Catholic social teaching. In *American Catholic Social Teaching*, a CD-ROM and book, Massaro and Shannon focus on the second definition listed above--efforts at the local level--and address the role of the laity and the concrete application of social teachings on the part of the laity. The documents and resources in *American Catholic Social Teaching* present the core of the social teaching of the American Catholic Church. Volume I: *The Documents*, is a CD-ROM containing twenty-three documents of social teaching from bishops of the Catholic Church in the United States written between 1829 and 1999. Volume II: *Analysis of the Tradition*, is a book containing twenty essays on the same social issues addressed by the bishops' statements in Volume I. System requirements: - Windows 95/98/NT i486 or Pentium processor-based personal computer- Microsoft Windows 95 or 98 or NT (with Service pack 3 or later)- 8MB of RAM on Windows 95 and Windows 98 (16MB recommended) This application is designed to be completely self-contained. Nothing will be loaded onto your computer system; everything needed to run the application software is on the CD-ROM. The CD is an autoloading CD. Insert the CD into your CD reader and Adobe Acrobat Reader will start and display a catalog of images.
