Jaws Peter Benchley

Here is Peter Benchley's classic suspense novel of shark versus man, which was made into the blockbuster Steven Spielberg movie. The *Jaws* phenomenon changed popular culture and continues to inspire a growing interest in sharks and the oceans today.

When Peter Benchley wrote *Jaws* in the early 1970s, he meticulously researched all available data about shark behavior. Over the ensuing decades, Benchley was actively engaged with scientists and filmmakers on expeditions around the world as they expanded their knowledge of sharks. Also during this time, there was an unprecedented upswing in the number of sharks killed to make shark-fin soup, and Benchley worked with governments and nonprofits to sound the alarm for shark conservation. He encouraged each new generation of *Jaws* fans to enjoy his riveting tale and to channel their excitement into support and protection of these magnificent, prehistoric apex predators.

This edition of *Jaws* contains bonus content from Peter Benchley's archives, including the original typed title page, a brainstorming list of possible titles, a letter from Benchley to producer David Brown with honest feedback on the movie adaptation, and excerpts from Benchley's book *Shark Trouble* highlighting his firsthand account of writing *Jaws*, selling it to Universal Studios, and working with Steven Spielberg.
