Moonlight Sonata at the Mayo Clinic

Nora Gallagher

Moonlight Sonata at the Mayo Clinic Nora Gallagher

A lyrical and honest portrait of illness and the way it changes life and faith, from the award-winning author of *Things Seen and Unseen*.

In the winter of 2009, Nora Gallagher was told she had an inflamed optic nerve, cause unknown, that if untreated would leave her blind. With this news, and the search for a diagnosis and treatment, her once busy and fast-moving life tunneled into a quieter country she calls Oz: unfamiliar, slower, deeply rooted in uncertainty and vulnerability. *Moonlight Sonata at the Mayo Clinic*, written as Gallagher was still recovering, is a moving meditation on serious illness, what helped her through and what didn't, why a wall exists between the sick and the healthy, and what can take it down partway. It is also a testament of modern faith—accepting of both science and intellect—and a hard-won revelation of what lies at the heart of ordinary suffering.
